The Sisters Brothers by Patrick deWitt

Hermann Kermit Warm is going to die. The enigmatic and powerful man known only as the Commodore has ordered it, and his henchmen, Eli and Charlie Sisters, will make sure of it. Though Eli doesn't share his brother's appetite for whiskey and killing, he's never known anything else. But their prey isn't an easy mark, and on the road from Oregon City to Warm's gold-mining claim outside Sacramento, Eli begins to question what he does for a living—and whom he does it for.

With The Sisters Brothers, Patrick deWitt pays homage to the classic Western, transforming it into an unforgettable comic tour de force. Filled with a remarkable cast of characters—losers, cheaters, and ne'er-do-wells from all stripes of life—and told by a complex and compelling narrator, it is a violent, lustful odyssey through the underworld of the 1850s frontier that beautifully captures the humor, melancholy, and grit of the Old West and two brothers bound by blood, violence, and love.

The Graveyard Book by Neil Gaiman

After the grisly murder of his entire family, a toddler wanders into a graveyard where the ghosts and other supernatural residents agree to raise him as one of their own.

Nobody Owens, known to his friends as Bod, is a normal boy. He would be completely normal if he didn't live in a sprawling graveyard, being raised and educated by ghosts, with a solitary guardian who belongs to neither the world of the living nor of the dead. There are dangers and adventures in the graveyard for a boy. But if Bod leaves the graveyard, then he will come under attack from the man Jack—who has already killed Bod's family.

The Ocean at the End of the Lane by Neil Gaiman

Sussex, England. A middle-
Aged man returns to his childhood home to attend a funeral. Although the house he lived in is long gone, he is drawn to the farm at the end of the road, where, when he was seven, he encountered a most remarkable girl, Lettie Hempstock, and her mother and grandmother. He hasn't thought of Lettie in decades, and yet as he sits by the pond (a pond that she'd claimed was an ocean) behind the ramshackle old farmhouse, the unremembered past comes flooding back. And it is a past too strange, too frightening, too dangerous to have happened to anyone, let alone a small boy.

Forty years earlier, a man committed suicide in a stolen car at this farm at the end of the road. Like a fuse on a firework, his death lit a touchpaper and resonated in unimaginable ways. The darkness was unleashed, something scary and thoroughly incomprehensible to a little boy. And Lettie—magical, comforting, wise beyond her years—promised to protect him, no matter what.

**11/22/63**
by Stephen King

*If you had the chance to change the course of history, would you? Would the consequences be what you hoped?*

Jake Epping, 35, teaches high-school English in Lisbon Falls, Maine, and cries reading the brain-damaged janitor's story of childhood Halloween massacre by their drunken father. On his deathbed, pal Al divulges a secret portal to 1958 in his diner back pantry, and enlists Jake to prevent the 11/22/1963 Dallas assassination of American President John F. Kennedy. Under the alias George Amberson, our hero joins the cigarette-hazed full-flavored world of Elvis rock’n’roll, Negro discrimination, and freeway gas-guzzlers without seat belts. Will Jake lurk in impoverished immigrant slums beside troubled loner Lee Harvey Oswald, or share small-town friendliness with beautiful high school librarian Sadie Dunhill, the love of his life?

**The Arrivals**
by Melissa Marr

Chloe walks into a bar and blows five years of sobriety. When she wakes, she finds herself in an unfamiliar world, The Wasteland. She discovers people from all times and places have also arrived there: Kitty and Jack, a brother and sister from the Wild West; Edgar, a prohibition bootlegger; Francis, a one-time hippie; Melody, a mentally unbalanced 1950s housewife; and Hector, a former carnival artist.

None know why they arrived there — or if there is a way out of a world populated by monsters and filled with corruption.

**A Game of Thrones**
by George R.R. Martin

Long ago, in a time forgotten, a preternatural event threw the seasons out of balance. In a land where summers can last decades and winters a lifetime, trouble is brewing. The cold is returning, and in the frozen wastes to the north of Winterfell, sinister and supernatural forces are massing beyond the kingdom's protective Wall. At the center of the conflict lie the Starks of Winterfell, a family as harsh and unyielding as the land they were born to. Sweeping from a land of brutal cold to a distant summertime kingdom of epicurean plenty, here is a tale of lords and ladies, soldiers and sorcerers, assassins and bastards, who come together in a time of grim omens.

Here an enigmatic band of warriors bear swords of
no human metal; a tribe of fierce wildlings carry men off into madness; a cruel young dragon prince barters his sister to win back his throne; and a determined woman undertakes the most treacherous of journeys. Amid plots and counterplots, tragedy and betrayal, victory and terror, the fate of the Starks, their allies, and their enemies hangs perilously in the balance, as each endeavors to win that deadliest of conflicts: the game of thrones.

**The Night Circus**  
by Erin Morgenstern

The circus arrives without warning. No announcements precede it. It is simply there, when yesterday it was not. Within the black-and-white striped canvas tents is an utterly unique experience full of breathtaking amazements. It is called *Le Cirque des Rêves*, and it is only open at night.

But behind the scenes, a fierce competition is underway—a duel between two young magicians, Celia and Marco, who have been trained since childhood expressly for this purpose by their mercurial instructors. Unbeknownst to them, this is a game in which only one can be left standing, and the circus is but the stage for a remarkable battle of imagination and will. Despite themselves, however, Celia and Marco tumble headfirst into love—a deep, magical love that makes the lights flicker and the room grow warm whenever they so much as brush hands.

True love or not, the game must play out, and the fates of everyone involved, from the cast of extraordinary circus performers to the patrons, hang in the balance, suspended as precariously as the daring acrobats overhead.

**Delia’s Shadow**  
by Jamie Lee Moyer

It is the dawn of a new century in San Francisco and Delia Martin is a wealthy young woman whose life appears ideal. But a dark secret colors her life, for Delia’s most loyal companions are ghosts, as she has been gifted (or some would say cursed) with an ability to peer across to the other side.

Since the great quake rocked her city in 1906, Delia has been haunted by an avalanche of the dead clamoring for her help. Delia flees to the other side of the continent, hoping to gain some peace. After several years in New York, Delia believes she is free...until one determined specter appears and she realizes that she must return to the City by the Bay in order to put this tortured soul to rest.

It will not be easy, as the ghost is only one of the many victims of a serial killer who was never caught. A killer, who, after thirty years, is killing again.

And who is now aware of Delia’s existence.

**The Emperor’s Soul**  
by Brandon Sanderson

A heretic thief is the empire’s only hope in this fascinating tale that inhabits the same world as the popular novel, *Elantris*.

Shai is a Forger, a foreigner who can flawlessly copy and re-create any item by rewriting its history with skillful magic. Condemned to death after trying to steal the
emperor’s scepter, she is given one opportunity to save herself. Though her skill as a Forger is considered an abomination by her captors, Shai will attempt to create a new soul for the emperor, who is almost dead.

Probing deeply into his life, she discovers Emperor Ashravan’s truest nature—and the opportunity to exploit it. Her only possible ally is one who is truly loyal to the emperor, but councilor Gaotona must overcome his prejudices to understand that Shai’s forgery is as much artistry as it is deception. Brimming with magic and political intrigue, this deftly woven fantasy delves into the essence of a living spirit.

Ensign Andrew Dahl has just been assigned to the Universal Union Capital Ship Intrepid, flagship of the Universal Union since the year 2456. It’s a prestige posting, and Andrew is thrilled all the more to be assigned to the ship’s Xenobiology laboratory.

Life couldn’t be better…until Andrew begins to pick up on the fact that (1) every Away Mission involves some kind of lethal confrontation with alien forces, (2) the ship’s captain, its chief science officer, and the handsome Lieutenant Kerensky always survive these confrontations, and (3) at least one low-ranked crew member is, sadly, always killed.

Not surprisingly, a great deal of energy below decks is expended on avoiding, at all costs, being assigned to an Away Mission. Then Andrew stumbles on information that completely transforms his and his colleagues’ understanding of what the starship Intrepid really is…and offers them a crazy, high-risk chance to save their own lives.
