Why read aloud?

Reading aloud is a great way to increase your child's chances of success at school. It will entertain and delight them. It will strengthen the bonds between you and your child. And it is virtually free.

Sound too good to be true? The magical method: taking time to read aloud to your child. Research has repeatedly proven that this one simple parenting technique is among the most effective. Children who are read aloud to by parents get a head start in language and literacy skills and go to school better prepared.

Reading aloud to young children promotes literacy and language development and supports the relationship between child and parent.

In other words, reading that bedtime story may not only entertain and soothe your child, it will also develop vocabulary, improve the ability to learn to read and—perhaps most important of all—foster a lifelong love of books and reading.
